

PREFERRED GLOBAL SUPPLIER FOR E/L & E/S SOLUTIONS, TO REALIZE A BETTER MODERN LIFE

Commercial Escalator

Escalator

Optimax 优迈

Product: Commercial Escalator

Selling point:

1. Fashionable and beautiful appearance.
2. The performance is safe and reliable, and the product fully complies with GB16899 and EN115.
3. High civil adaptability, width and span less than general requirements.

Basic parameters:

Angle: 30° /35°

Travel: 2.5m~8m

Step width: 1000mm/800mm/600mm

Speed: 0.5m/s

Use environment: indoor/outdoor

Optional features:

1. Lighting: comb lighting, handrail lighting, step lighting, skirt lighting
2. Heating: machine room heating, staircase heating, comb heating, handrail heating
3. Operation mode: industrial frequency intelligent operation mode, frequency conversion high and low speed operation mode, frequency conversion self-start operation mode

Escalator Prepackage

Optimax 优迈

Product: Escalator Prepackage

Selling point:

1. Fully customized, customized on demand;
2. Professional component processing capability, stable quality and supply;
3. Optimize the customer's escalator assembly capacity, shorten the production cycle, and improve production flexibility.

Parameter:

Escalator type: commercial escalator, moving walk, heavy duty escalator

Truss type: angle steel truss/square tube truss

Travel: 2.5m~20m

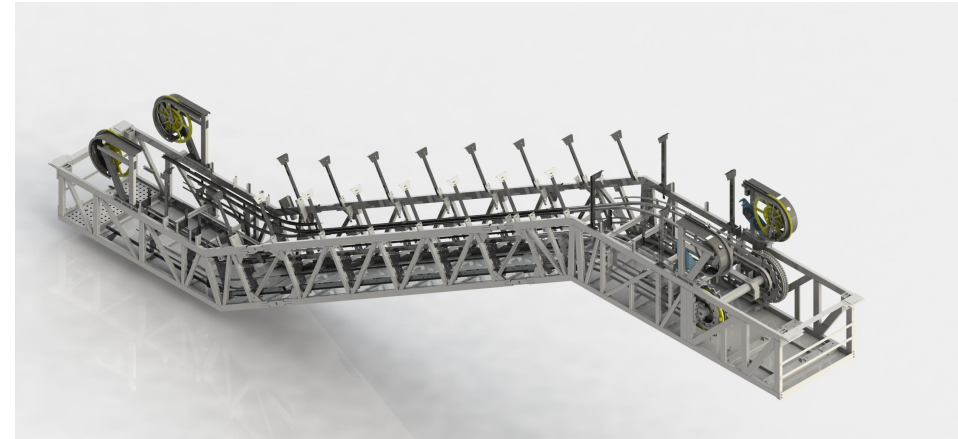

Armrest drive: friction wheel drive/end drive

Handrail railing: glass railing/stainless steel railing

Use environment: indoor/outdoor

Basic components: truss, main drive, side plate, tensioner, handrail drive, step rail, handrail support

Optional components: front panel support, main engine, drive chain, control cabinet and switch, step chain, steps

Truss

Optimax 优迈

Product: Escalator Truss

Selling point:

1. Professional team, professional production line, rich experience;
2. Complete qualifications and perfect management;
3. Reliable quality and stable supply;
4. Rich varieties; can fully meet customer needs.

Parameter:

Escalator type: commercial escalator ladder, moving walk, heavy duty escalator

Type: angle steel truss / square tube truss / square tube + angle steel mixed truss

Travel: 2.5m~50m

Maximum length: 150 meters

Truss width: 1100mm~1800mm

Truss height: 600mm~2800mm

Surface treatment: general indoor paint/hot-dip galvanized/hot-dip galvanized+heavy anti-corrosion paint
